

# 2011 Gordon-Kenan Research Seminar

## Chemical and Biological Terrorism Defense

March 19<sup>th</sup> and 20<sup>th</sup>, 2011  
Ventura Beach Marriot  
Ventura, CA

---

**Abstracts due by November 19<sup>th</sup>, 2010**

---

**Research Frontiers in Chemical and Biological Defense:** The focus of this meeting is basic and translational research advances related to biodefense, including mechanisms of pathogenesis and toxicity, host-microbe interactions, innate host response, detection capabilities, and countermeasure development.

Gordon Research Seminars provide a unique forum for graduate students, post-docs, and other scientists with comparable levels of experience and education to present and discuss current research and cutting edge ideas.

A limited number of competitive travel awards will be available to attendees.

Participants are also encouraged to attend the associated Gordon Research Conference, March 20<sup>th</sup> - 25<sup>th</sup>, 2011
